THE COMPLETE GUIDE TO BUILDING YOUR OWN GREENHOUSE: EVERYTHING YOU NEED TO KNOW EXPLAINED SIMPLY

Atlantic Publishing Group (FL). Paperback. Book Condition: New. Paperback. 336 pages. Dimensions: 8.9in. x 6.1in. x 1.3in. Food costs these days are outrageous and only growing more each day. Recently, during a two month period between June and July alone, the cost of consumer products rose by more than 1.5 percent across the board, with nearly a 2 percent increase in food costs, according to the Federal Reserve. Added to rising fuel costs and a global food crisis and the costs just continue to rise. So, the prospect of building your own greenhouse and growing your own fruits and vegetables is probably starting to sound more and more viable and like a great way to bypass those prohibitive costs. Of course there is a myriad of issues that need to be dealt with by anyone seeking to save money with a greenhouse. This book, by walking you through every step of the process in building and taking advantage of your own green house, seeks to layout those issues and ensure you have as easy a time as possible without any surprises. You will learn the various principles of greenhouse use and the different types of greenhouses you can use depending on your location and the specific needs you may have. Learn how to select a proper site and to set a foundation that will hold the greenhouse effectively in place regardless of weather conditions throughout the year and maintain the heat generated in the greenhouse. Learn how to frame your green house and how to effectively glaze the glass. Learn what kinds of ventilation are needed and what forms of supplemental heat, insulation, and heat sinking you will need to acquire for your greenhouse. Greenhouse and plant experts have been interviewed and their insights have been added to this book...
